Options	Sketching type	<p>Geometric outline: Done with arcs and proportions, as per the masters' original methods. Intended to be as close as possible to the original master's corresponding mould.</p> 	<p>Asymmetric outline: Done with spline curves which follow the actual shape of the instrument. Intended to reproduce the inner outline of a given model, including all the asymmetric irregularities.</p>
	Inner cuts type	<p>Wide cuts: Versatile solution with plenty of room to accommodate any kind of clamps.</p> 	<p>Holes for Bessey TK6 clamps: 8 mm holes smartly placed for an optimum orientation of the clamping forces. Accurate and straightforward solution.</p>
	Engraving language	<p>English</p>	<p>French</p>
